Sprint #2 Plan

HelpMeHelpYou

November 04, 2018

Revision 0.1

10/22/18

• We want to create a space where users can see and actively communicate with other users about their resources.

• User Story 1, I want people to know more about me and my needs, so I want a profile that tells other users more about me.

- Task 1: Allow the users to set up their resource list as they sign up with a new account. (5)
  Time estimated: 3 hours.

- User Story 2, I want to display what resources I can provide.
  - Task 2: Allow the user to add their resources in the database. (3)
    Time estimated: 2 hours
  - Task 3: Be able to show their added resources on the website. (2)
    Time estimated: 1 hour
  - Task 4: Allow the user to delete their resources in the database.(3)
    Time estimated: 2 hours
  - Task 5: Be able to show their deleted resources on the website. (2)
    Time estimated: 1 hour
  - Task 6: Allow the user to edit their resources in the database. (3)
    Time estimated: 2 hours
  - Task 7: Be able to show their edited resources on the website. (2)
    Time estimated: 2 hours

- User Story 3, I want to be able to see other's resources.
  - Task 8: Pull from the database and see what resources other users have to provide.(4)
    Time estimated: 2 hours
- User Story 4, I want to communicate and connect with other profiles.
  - Task 9: Create a chat room with the two users to discuss how to share the resources. (6)
    Time estimated: 4 hours

Team Roles:

Srija Konjarla- Sprint 2 Scrum Master

Gordon: User Story 3. Pull from the database and see what resources other users have to provide.

Jade: User Story 4. Create a chat room with the two users to discuss how to share the resources.

Initial Burnup Chart:

Sprint 2 Burnup Chart

Ricky/Donald• Initial scrum board: Also known as a task board, the scrum board is a physical board and labeled as such with sprint number and project name and located in the lab. This board has four columns, titled user stories, tasks not started, tasks in progress, and tasks completed. Index cards or post-it notes representing the user stories and the tasks for this sprint should be placed in the user stories, tasks not started, and tasks in progress columns. Tasks associated with a user story should be placed in the same row as the user story.

User Stories	To Do	In Progress	Complete
As a user, I want to be able to set up a resource list when I sign up.	Create a SQL form for users to input resources when they sign up		
As a user, I want to be able to add and delete resources I have and be able to	Create a function to input and delete resources to the database. Create a		

see my resource.	function to show current user's resource.		
As a user, I want to be able to see other user's resources.	Display the resource database of a certain user. Create a request function.		
As a user, I want to be able to talk other users about sharing resources.	Create a chat room with the two users to discuss how to share the resources.
