Sprint #4 Report
HelpMeHelpYou
11/30/18

Actions to stop doing:
- Team should stop using different naming conventions
  - Team members should communicate with one another and use same naming convention. Using different naming convention can cause confusions in the code and cause bugs when merging our codes.

- Team members should stop talking about other topics during meetings
  - Team members should stay on topic during meetings so that we can optimize our time and use it to figure out what has to be done.

Actions to start doing:
- Team should begin putting parts of the project together start at an earlier time
  - Allows for better time management for remaining actions needed to be completed when the deadline is near.
  - Allows team members to better understand the different parts of the project as they are working on it.

- Team should come together more often apart from meeting times to work on difficult tasks within the project
  - Allows for difficult tasks to be completed in less time with the help of multiple members, resulting in more time to complete other tasks.

Actions to keep doing:
- Team should continue getting tasks finished on time each week
  - Allows for more time on improving current tasks and toward figuring out new tasks that would benefit the project.

- Team should continue starting and finishing meetings on time
  - It is a good practice and allows for more time toward working on the project at hand.

- Team should continue improving and polishing existing tasks

○　Leads to a more consumer friendly product and allows the product to be more enjoyable for the consumer.

Work completed/not completed:

Work completed:
- As a user, I want to be able to comment on specific resources that I am interested in.
- As a user, I want to be able to see visuals of the resources so that I know what resources are being offered.

Not completed:
- As a user, I want to be able to connect with other users so that I can share my resources to people I know.
- As a user I want to be able to see resources near me so that I can know what resources are accessible to me.

Work completion rate:

Sprint 4:

Total number of user stories completed during the prior sprint: 2

Total number of estimated ideal work hours completed during the prior sprint: 7 hours

Total number of days during the prior sprint: 14 days

Average User Stories/Day: 0.5

Sprint 3:

Total number of user stories completed during the prior sprint: 3

Total number of estimated ideal work hours completed during the prior sprint: 17 hours

Total number of days during the prior sprint: 14 days

Average User Stories/Day: 1.21

Sprint 2:

Total number of user stories completed during the prior sprint: 3

Total number of estimated ideal work hours completed during the prior sprint: 15 hours

Total number of days during the prior sprint: 14 days

Average User Stories/Day: 0.21

Sprint 1:

Total number of user stories completed: 3 user stories

Total number of estimated ideal work hours completed during the prior sprint: 10 hours

Total number of days during the prior sprint: 14 days

Average User Stories/Day: 0.21
